

PARAMI ASHINSA

PROFILE

Final-year Information and Communication Technology undergraduate with a strong interest in Business Analysis and Data Analytics. Experienced in translating business requirements into practical digital solutions through system analysis, database design, web development, and data visualization projects. Proficient in SQL, Power BI, Python, HTML, CSS, JavaScript, and Figma, with hands-on experience designing business systems, developing responsive websites, and creating data-driven solutions. A proactive learner with proven leadership experience and a passion for solving real-world business problems through technology.

PROJECTS

Camera Rental Management System

- Conducted end-to-end business analysis for a camera rental management solution.
- Produced Software Requirement Specification (SRS), business process models, use case diagrams, activity diagrams, and an Entity Relationship Diagram.
- Designed a normalized relational database and user interface prototypes.
- Developed a responsive project website to present the complete case study and project deliverables.
- Technologies: Business Analysis, SQL, Figma, Draw.io, HTML, CSS, JavaScript

Retail Sales Analytics System

- Designed a relational database for retail sales management using normalization principles.
- Developed SQL scripts to create tables, define relationships, and support analytical reporting.
- Planned an interactive Power BI dashboard to visualize business performance and sales insights.
- Technologies: SQL, MySQL, Power BI

Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio website to showcase technical projects, certifications, and professional achievements.
- Implemented separate project pages with intuitive navigation and responsive layouts.
- Integrated GitHub Pages deployment for online accessibility.
- Technologies: HTML, CSS, JavaScript, GitHub Pages
